Care Without Limits

Company Profile

EMIRATES EUROPEAN HEALTHCARE

Emirates European Healthcare

Emirates European Healthcare has been established by **TBM Holding** and **Dr. Ch. Mounayer**.

On account of his **35 years** of experience, Dr. Mounayer noticed that in spite of the considerable medical advancements in the region there still remains a need for some pathologies to be treated through medical tourism.

As a result, **EEH** was created in order to provide medical tourism for the United Arab Emirates and the GCC.

In its pursuit of excellence EEH looks forward to partnering with first-class medical facilities around the world.

Mission

Emirates European Healthcare provides quality healthcare aligned with International standards for residents in the UAE and GCC.

We offer world-class medical tourism services, assist in planning and implementing tour packages and develop innovative procedures while adhering to the laws, regulations and ethical codes of the Medical Industry.

Vision

To become a leader in the GCC by providing high-quality medical tourism services that respond to your healthcare needs.

Who we are ?

We offer a broad range of assistance to medical tourists.

We deliver premium quality services that exceed our patients expectations.

We listen enthusiastically and attentively to all of our clients concerns.

We are committed to providing innovative and customized solutions to our clients unique challenges.

We have forged strong relationships with leading hospitals worldwide.

We aim to excel in personalized care by understanding and practicing the importance of an individualized patient experience.

We value transparency with our patients and aim to manage his or her expectations with honesty and accuracy.

We adhere to the highest standards in the medical industry.

Why France ?

MEDICAL EXCELLENCE

PATIENT CARE & SAFETY

FAIR PRICES

Why France ?

Medical excellence:

After using the five performance indicators to measure health systems in **191** countries, the World Health Organization (**WHO**) finds that France provides the best overall health care quality system.

With the numerous Physicians and state-of-the-art hospitals, France attracts patients wanting to benefit from the latest surgery technique and the most advanced medical devices.

Reasons that patients are coming from different countries (**50% from EU**) for consultations in France include: newly diagnosed cancers, kidney dysfunction, chronic osteoarticular, cardiovascular diseases, neurological conditions and digestive diseases.

**EMIRATES

HEALTHCARE**

Why France ?

Patient Care and Safety

The freedom of choice, no waiting lists for treatments, access to medical services is equal and patients can get their treatment irrespective of social status or work situation are among the reasons why France ranks high on most measures of health status.

Safest care possible in the shortest delays and lowest mortality related to healthcare are the most common measures of healthcare efficiency.

The Ministry of Health controls and assists the care quality by producing annual statistics in accordance with **European Center for Disease Prevention and Control**.

HEALTHCARE**

Why France ?

Fair prices

High costs are not always evidence of a high care quality.

Providing the right care at the right price is our commitment.

With respect to specific surgical procedures, hospital costs, primary care costs...
