- Ophthalmology
- Mother and Child Care (Maternity, IVF)

Multidisciplinary Center:

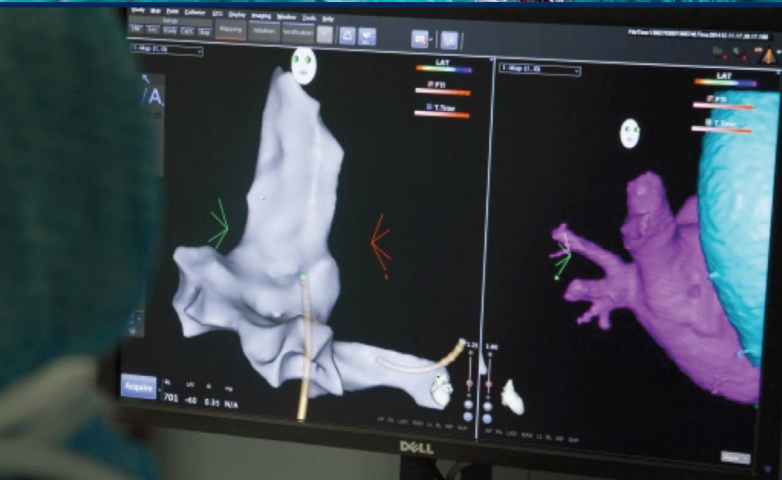

- Gynaecological & Breast Surgery
- Oral and Maxillofacial Surgery
- Bariatric Surgery (Obesity)
- Sleep Laboratory
- And more...

Since the creation, the Ambroise Paré-Hartmann group have implemented the best in patient care. This is achieved by Quality, Technology, Research and Innovation but we put an emphasis on a warm welcome which provides the DNA of our Institution.

We define Quality as a comprehensive look at all aspects of a patient's experience, especially:

- Compliance with evidence-based International recommendations.
- Volume of patients with complex diagnoses successfully treated.
- Volume of patients coming from foreign countries.

Quality and service can also be measured in other ways, such as:

- The amount of time spent with each patient.
- The ability to communicate with patients in their own language.
- Making sure each patient is treated with respect, kindness and dignity by every member of the team.
- Ensuring all test results and other patient information is available to every doctor whenever it is needed.
- Ensuring the required reports are available at the time of discharge.
- Ensuring that post discharge appointments are on time.

This strategy allows us to look to the future with serenity and determination. The Ambroise Paré-Hartman teams have been ranked recently as the number 1 National place for Cardiology, Cardiac Surgery and Spine Surgery.

The International Department:

A large number of foreign patients from **45** different countries come to the hospital for treatment every year. To ensure that patients receive the best possible care, an international unit has been set up to provide you with any information you require concerning your hospital stay. Multiple languages are spoken in this department where we welcome patients from around the world.
